

## OH I CAN App Guide for Android Users

These instructions are intended to show app users who are using an Android device how to download and input patient data into the OH I CAN app. The screenshots in this guide were taken on an Android tablet, but screens may look differently on your own device.

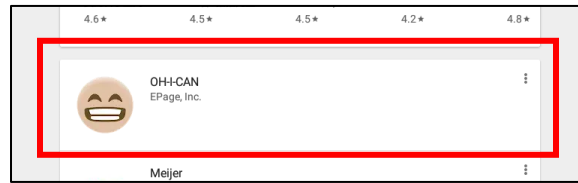

1. Download the app from the Google Play Store

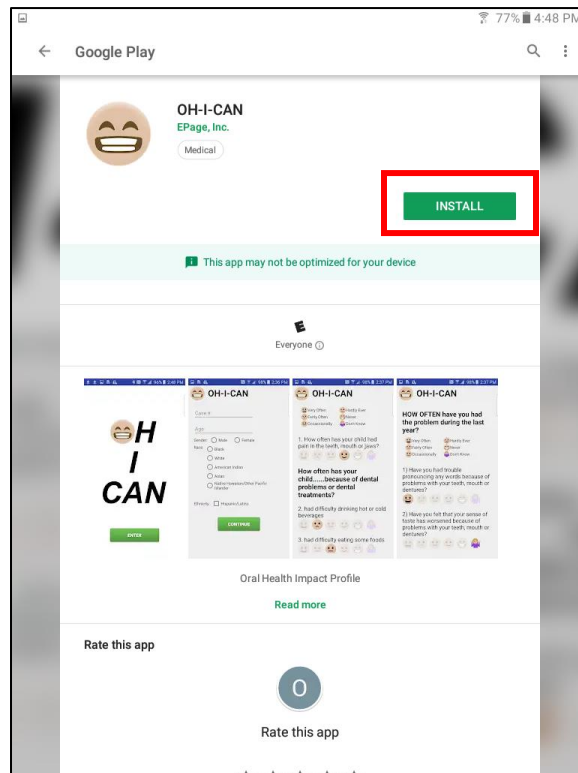

2. Search for the OH I CAN app.

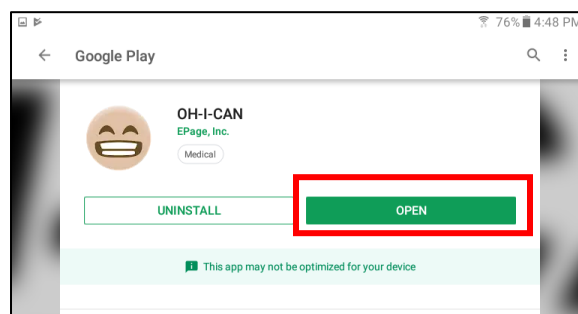

3. Select the OH I CAN app.

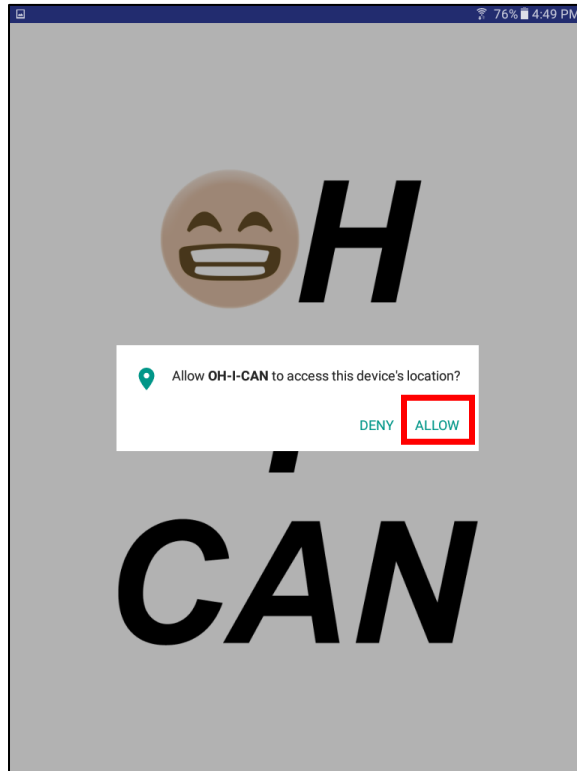

4. Download the app.

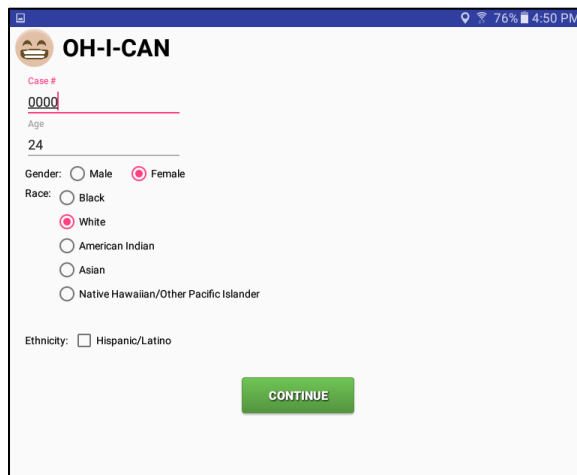

5. After downloading is complete, open the app.

6. Allow the app to locate your location.

7. Tap anywhere on the screen to open the app.
8. Input the case number, patient age, patient race, and patient ethnicity on the first page.

9. Fill out the patient questionnaire using the legend of emoticons at the top of the page. The last three questions of the questionnaire are answered with a thumbs up (yes) or thumbs down (no).

The screenshot shows the 'OH-I-CAN' app interface. At the top, there is a header with a smiley face icon and the text 'OH-I-CAN'. Below this, a red box highlights the frequency legend: 'HOW OFTEN have you had the problem during the last year?'. The legend includes five options with corresponding emoticons: 'Very Often' (frowning face), 'Fairly Often' (neutral face), 'Occasionally' (slightly smiling face), 'Hardly Ever' (neutral face), and 'Never' (neutral face). Below the legend, two questions are visible: '1) Have you had trouble pronouncing any words because of problems with your teeth, mouth or dentures?' and '2) Have you felt that your sense of taste has worsened because of problems with your teeth, mouth or dentures?'. Each question has a row of six emoticons for selection.

10. Tap FINISHED to submit the completed patient questionnaire. The questionnaire cannot be submitted unless all the questions have been completed. Tap CANCEL to cancel the current questionnaire and go back to the first screen with patient demographic information.

The screenshot shows the 'OH-I-CAN' app interface at the end of the questionnaire. The frequency legend is visible at the top. Below it, three questions are shown: '15) Have you had a lump/bump for more than 2 weeks or non-healing sore involving your tongue mouth or neck?', '16) Does your dentist perform a head and neck cancer exam at every visit?', and '17) Does your dentist perform a blood pressure at every visit?'. Each question has two thumbs-up/down icons for selection. At the bottom of the screen, there are two buttons: a red 'CANCEL' button and a green 'FINISHED' button. The 'FINISHED' button is highlighted with a red box.
